Warped Spacetime with Crypto
Native Primitives.

INTRO

Hakka Finance is a decentralized financial ecosystem with remarkable DeFi products administered by governance token: HAKKA. By distributing HAKKA directly into the hands of users and community, an increasingly huge ecosystem will be incentivized to upgrade the protocol and collectively steward the protocol into the future with excellent governance.

GOVERNANCE

HAKKA token holders are bestowed upon rights to (delegate) debate, propose, and vote on all changes to the protocol.

TOKEN USAGE

HAKKA is the protocol token that empowers community governance of the Hakka Finance, an ecosystem of marvelous DeFi products.

BURN

HAKKA is more than a governance token. The ultimate usage of HAKKA is ragequitted. Holders can burn their token and draw funds from the vault proportionally whenever they want.
